The Surgical Instrument Desk Reference

How to Use Our Catalog

The Symmetry Surgical catalog is designed with you in mind, to be your trusted resource for surgical instrumentation. We took great care in creating an easy-to-use, robust catalog and we think you'll be pleased with the design as you become more familiar with our broad portfolio.

Layout

The catalog is organized by surgical specialty **and** product function.

And we know that it is difficult to pick up an instrument and know what specialty it's listed in. To make your job easier, we've sorted the instruments in our portfolio by surgical function, too, including Energy, Laparoscopic, Retractors and Sterilization Solutions.

U.S. Customer Service

Your Symmetry Surgical Customer Service team wants to make ordering surgical instruments the easiest part of your day. We accept orders via phone, fax, email, our website, Global Healthcare Exchange (GHX) and through the mail.

Product Complaint? Call 800-251-3000

Patient safety is our #1 priority. We are committed to delivering exceptional quality and service. Compliance with domestic and international medical device regulations is strictly maintained at all times.

Product complaints are addressed promptly by our Complaint Handling Team. Contact Customer Service and request a Return Material Authorization (RMA) to begin the investigation process. Please return the instrument (with the original package and label – if available) along with the RMA form.

A representative will contact you within 48 hours of receiving the returned instrument with details regarding the steps we will take to ensure you and your patients are satisfied with the instruments you purchase from us.

History of Symmetry Surgical's Energy Portfolio

In 1973, Olsen® Medical introduced the first line of single-use monopolar electrosurgical handles for use as electrosurgical pens and pencils.

Now part of Symmetry Surgical, Olsen®'s innovative energy portfolio has expanded to include our Extendable Electrosurgical Pencil as well as a wide array of electrodes and monopolar forceps, cords and adapters to satisfy your needs.

Symmetry Surgical's Olsen® Bipolar Forceps

In 1988, Olsen® Medical introduced the first line of cost-effective, single-use bipolar forceps, and ten years later we introduced our innovative Midas Touch® non-stick bipolar forceps.

Today, as part of Symmetry Surgical, Olsen® continues to focus on innovative and cost-effective ways to improve patient outcomes.

Single-use products are sold sterile.
Kits Include Forceps, 12 ft (3.6 m) Cord and Surgi-Wipe.
